SUMMARY

Motivated and curious student with a strong interest in technology, and coding, as well as politics and history. Founder of the Coding Commons, a global online developer community. Experience in Python, and basic web development, with a passion for creating tools and platforms that solve real problems. Committed to learning, and applying analytical and creative thinking across both technical and academic pursuits.

EXPERIENCE

Director of E-Sports

WA E-Sports

SEPTEMBER 2025 – PRESENT

- Co-directed the organisation alongside faculty leadership, providing strategic and operational oversight.
- Led knowledge transfer and training for senior staff, ensuring continuity of systems, processes and procedures.
- Oversaw operations, branding, and internal workflows across competitive teams.

Founder & Lead Developer / Community Lead

[The Coding Commons](#)

APRIL 2025 – PRESENT, REMOTE (GLOBAL)

- Founded and led a global online developer community focused on collaboration, learning, and knowledge sharing.
- Maintained an active presence within the developer ecosystem through ongoing networking, promotion, and community engagement initiatives.
- Designed, developed, and maintained custom automation and moderation tools using Python to support scalable community operations.
- Planned and delivered platform features, documentation, and tooling based on community feedback and usage patterns
- Managed day-to-day community operations, including moderation, onboarding, and member support.

Independent Software Developer

Harry Wheeler

MAY 2020 – PRESENT, REMOTE

- Designed and maintained multiple Discord bots using Python.
- Implemented features such as ticket systems, and

- multilingual support.
- Developed features based on user feedback to enhance bot functionality.
 - Created games and established communities to engage users effectively.

Assistant Director

WA E-Sports

JANUARY 2025 – SEPTEMBER 2025

- Supported organisational leadership with day-to-day operations and decision-making.
- Monitored performance and developed improvement plans.

Digital Marketing Lead

WA E-Sports

OCTOBER 2024 – JANUARY 2025

- Managed audience engagement.
- Collaborated with team members to achieve target results.
- Identified issues, analysed information and provided solutions to problems.
- Picked up additional tasks to aid team success.

SKILLS

- Strategic Planning
- Team Management
- Community Engagement
- Software Development
- Decision-Making
- Organisational Structuring
- Technical Communication
- Global Politics Insight
- Computer Literacy
- Critical-Thinking
- Strategic Thinking

ACCOMPLISHMENTS AND AWARDS

Sailing:

- Completed Royal Yachting Association Training Stages 1-4 (all), and Start Racing.
- Achieved B-Helm Racing Qualification.
- Sailed in challenging conditions whilst sailing with spinnakers, including a storm with gusts up to 30-40 knots.

Awards & Recognition:

- Duke of Edinburgh Bronze Award
- Successfully petitioned and wrote a formal proposal to add Computer Science as a subject at school, expanding curriculum options for students.

Charity & Community Impact:

- Raised over £1,100 for Cancer Charities, supporting research and awareness initiatives.
- Volunteered weekly for approximately six months to clean and maintain a local park, carrying out regular litter-picking to improve the local environment.

HOBBIES

Sailing:

Experienced sailor with years of practice, member of a local yacht club, and recently applied to join the Royal Yachting Association Futures Lab to further develop skills and leadership on the water.

Politics:

With a strong interest in policy, history and current affairs I am actively engaged in political research and discussion. I am a member of a cross-party political organisation that allows me to get first-hand insight into the political landscape.

PROJECTS

Ticket Time: Discord Ticket Bot:

Founder & Lead Developer

- Designed and developed a multilingual Discord bot to manage ticketing and support for online communities.
- Ticket Time has reached over one hundred communities across the globe with over fifteen thousand predicted users.
- Implemented advanced features including role-based access, and multi-language support.
- The project demonstrates technical proficiency in Python, and web development, as well as project management and problem-solving skills.
